In Chapter Ten, “Believing the Best,” Dr. Winston reminds us that we are one within and one with God; and because of that, the power of our words comes from the agreement between what’s in our hearts and what comes out of our mouths, just as it does with God. That agreement leaves the enemy powerless.

Jesus and John, the Baptist are our examples of finding out who we are from the Word of God. Once we know who God says we are, we can reign in life by saying what we believe about ourselves. The truth is, we are children of the Most High God and we have gifts to use and callings to fulfill.

We have to stop the blame game and take responsibility for our own lives. When we take responsibility, we train our tongue and watch God overpower our enemies.

God speaks the truth, whether we believe it or not. Romans 3:3 says God’s Word works whether we believe it or not. God cannot lie. So, though we have a difficult time believing God sometimes, we must refrain from replacing His Truth with a golden calf we have less trouble believing in.

We have to make a commitment to stand on God’s Word. Though believing isn’t always easy, we must keep working on it. It will be done to us according to our faith.

Take these quotes from Dr. Winston with you:

• “Don’t leave this Earth with anything still on the table”; and
• “Right now, you need to get honest with yourself about what you really believe and uproot any bad trees in your heart that go crosswise with the truth. Then you can believe God for all the outrageously impossible things He wants you to be and to do.”

THE LAW OF CONFESSION OVERCOMES NATURE

11. Yeshua overcame natural law with a greater spiritual law when He told Peter to cast his net again at a time when fish are naturally not biting. If Peter had focused on the natural, he would have missed his blessing. What’s holding you back because you’re looking at it naturally?

“In [Genesis 1] verse 3, He said, ‘Light be,’ and light was. He didn’t talk about the darkness at all because He knew the darkness of this world was temporal, but the light of God was eternal. “Your faults and weaknesses are also temporal, but who you are in Jesus Christ is eternal.”

The only reason the devil still has any influence in the Earth is because the church has not received what God has promised us. God has given us the ability to speak those things that be not as though they were and obtain all things that pertain to living a Godly life, but we have not been bold to speak His Word and overcome everything the world does to stop His plan.

“God needs a voice to overcome the world today, and we are His voice.”
